

Battery Lift Table Technical Specifications

3-Tier Electric Battery Lift, Retractable Mast, 110"

This 1,000 lb lift capacity allows one person to easily lift and transport extra-heavy loads, helping prevent lift injuries. Retractable mast can be reduced to 80"H for doorway clearance and transportation purposes. Standard with heavy-duty floor lock, 1HP 115/1/60 motor and remote control with coil cord (4' retracted, 20' extended). Leaf-type chains with 8250 lb yield point and lift speed of 4" per second.

Acran Item Number	5BTL1103
Load Capacity (lbs.)	1000
Max. Lifting Height (in.)	110
Min. Lifting Height (in.)	5.25
Platform Length (in.)	30
Platform Width (in.)	32
Motor	Standard 1 HP 115/1/60
Weight (lbs.)	1000
Overall Height (in.)	133/80
Depth (in.)	52
Width (in.)	41
Leg ID/OD (in.)	34/40
Coil Cord (ft.)	4' retracted, 20' extended
Load Center (in.)	18

Manufacturing Facility:
105 Snyder Road
South Plainfield, NJ 07080
